Theme Summer Camp Descriptions

***Post Office:** Come explore the world of mail delivery. We will learn how to mail a letter, pack a package, and learn what a post card is. We will deliver the mail, and actually receive a letter from our friends. Join us for a week of post office fun!

***Creepy Crawlies:** Spiders, beetles, grasshoppers, oh my! Summer is a fun time to learn about bugs, and all the creepy crawly insects that fill our days with fun. We will learn about the life cycle of the butterfly, and even watch our own caterpillars go through metamorphosis. This will be a week full of discovering what our favorite bugs are, and learning all about how they live.

***Things That Grow:** We will sprout seeds, examine root systems, and grow some plants to take home. We will do some crafts with seeds, leaves and flowers. We will talk about (and eat) the different parts of plants that we eat. How plants are important to animals.

***Blast Off Into Space:** Take a rocket ride to the planets, the sun, the stars and beyond. Learn about our enormous universe through games, crafts and songs.

***America The Beautiful:** Come and learn about the history of our country and celebrate the best place on Earth. Bring your bike to decorate for our parade the last day.

***Creative Scientists:** Have you ever wanted to know how to make snowflakes in the summer? How about how to make hot ice, or learn how to blow up a balloon without using your own air? During our creative scientist week we will use our minds to create fun, and exciting experiments that will ignite our interest in the world of science.

***Teddy Bear Adventures:** Explore the life of bears in the wild as well as fictional bears we've all grown to love. Bring a new bear each day for our "compare bear share."

***Music Makers:** Experience the joy of children's classics as well as new songs we will be learning and even writing ourselves. We will be making our own instruments to take home each day.

***Teamwork Time:** Learning the importance of being a good friend and how we all need each other to accomplish great things in life.

***On The Beach:** Fun in the sun, flip flops, splashing in the water, and exploring the beach is the most fun in the summer. We will make our very own sand castles, learn about sea turtles, and make our very own jelly fish in a jar. Lets enjoy some of the fun things we can do at the beach from our very own preschool.
